## EXPERIENCE

**Graphic and Web Designer**  
**Kamerycah Inc.**

⌚ Torrance, CA ☃ May 2023 – Dec 2024

- Designed and developed website features and microsites using HTML, CSS, JavaScript, PHP, and WordPress.
- Built interactive prototypes to test functionality and validate design assumptions before deployment.
- Created site components that required coordination across back-end data, content systems, and front-end UX.
- Developed digital assets (banners, motion graphics, interactive media), increasing YouTube engagement 5× and raising product sales 30%.
- Managed online purchase data and routed orders to appropriate market teams, improving turnaround speed and operational efficiency.

**Junior Software Developer**

**Well Data System**

⌚ Pangyo, South Korea ☃ Nov 2021 – Feb 2022

- Maintained and improved internal CRM-style dashboards using JavaScript, PHP, and SQL.
- Reduced duplicated records and improved data consistency by 10%, enhancing workflow and decision-making in the marketing team.

**Assistant Fashion Designer**

**Sweet People Apparel**

⌚ Los Angeles, CA ☃ Sep 2019 – Apr 2020

- Developed a structured comparison framework for pattern evaluation that improved clarity and reduced sample revision time by 15–20%.
- Streamlined production workflow and communication with overseas factories, enabling faster seasonal production and reduced unnecessary revisions.
- Created marketing visuals, lookbooks, and seasonal presentations, with emphasis on pattern interpretation and spatial/constraint-based design.
